

FOOD GRADE SILICONE

Description

This is a high quality lubricant for use in food and industrial manufacturing facilities. Special note: when used in food plants this product should only be used on equipment or machine parts where “incidental food contact” ONLY may take place.

Use/Benefits

- Eliminates sticking parts to reduce friction for better performance and reduced maintenance
- Prevents mould, grime and rust build-up
- Lubricates screws, bolts and joints to reduce the possibility of production line seizures.

Physical Properties

Colour	-	Clear/Colourless
Odour	-	Fragrance Free
pH	-	Not applicable
Flammable	-	Yes

Package

Can size: 20 oz
340 grams (12 oz)

Product

11111-BT634
